

Accomplishments

- Backend functions for sellers to upload their products
- Backend functions for buyers to view uploaded products on their feed
- Stripe marketplace SDK integrated into project

Next Week's Plans

- Implement basic sales management
- Payouts through stripe
- Profile creation/customization

This Week's Plans

- Work on payment processing/purchasing uploded products with Stripe SDK
- Allow for sellers and buyers to view and track their orders

Risks / Help Needed

- No risks identified so far
